

The present day cops of Taiwan have all turned into Red China's "public security bureaucrats." Ma, though placed as a Taiwanese president, had already become a [communist-affiliated traitor-criminal](#). Since Ma had already betrayed the Republic of China's Constitution, and [the Taiwanese police, who are suppose to serve our people and maintain our public safety, had also turned into a communist-affiliated, trample-on-Taiwan tool](#), the prosecution and judicial system is also willing to be operated by the Chinese communist "bandits" authority; the Taiwanese people must be self-motivated to decide our future and protect our democracy and human rights.

If our national public safe-keeping civil workers have transgressed our democratically-based legal boundaries, then, we, the people, are perfectly reasonable to rise up and rebel against, as well as chasing and arresting these unconstitutional and unlawful public safety and judicial civil workers; and turn them to public trials.

All these actions are for averting the Chinese Communists from taking over us and Taiwan's history-repeating fall into the terrors, bloodiness, and deaths of the [February 28th Massacre](#).

The Taiwanese people must establish a military force to defend our freedom, democracy, and human rights; and through united action, fight a nation-building civil

war to ensure **DESTRUCTION OF OUR ENEMIES** as well as our survival (see “[Form a Civil Government](#)” by Alison Hsieh; Nov. 4, 2008).

Before the imminent civil war, we will give Ma one more chance.

We shall observe the effectiveness and results of waves upon waves of rebels, lawsuits, and petitions for our human rights!
