We are a group of A-bian's supporters, and are proud of being called "Bian Casters" with the following concensuses:

1. Against one China policy, and resist to unify with China. Taiwan and China are two separated independent countries.
2. Advocate the "No Unification with China" referendum and the cohesion of Taiwan's internal unity.
3. Fully abandon the "Republic of China" Constitution and system of government.
4. Develop Taiwan's new constitution, and proclaim to the world that Taiwan is a "new and independent" state.
5. Apply to join the United Nations with the name of Taiwan as an identity of new Member State.
